

Blade Coffee

Parisotto+Formenton

true

The new coffee tables derive from the Blade family, with which they share the great formal lightness and the marked bevel of the top that lightens the perception of its shape. Stackable and modular, low and compact, linear and precious, they are versatile as side tables, complementary, service tables, from home to office.

The collection of lacquered MDF tops is further embellished by the variants in Aplì green, Verona red and Carrara white marble.

I nuovi coffee table nascono dalla famiglia Blade, con cui condividono la grande leggerezza formale e lo smusso marcato del piano che alleggerisce la percezione delle sue forme. Sovrapponibili e componibili, bassi e compatti, lineari e preziosi, sono versatili come tavolini d'appoggio, di complemento, di servizio, dalla casa all'ufficio.

La collezione di piani in MDF laccato è ulteriormente impreziosita dalle varianti in marmo verde Aplì, rosso Verona e bianco Carrara.
